

Dear Sirs,

I am writing to respectfully request that the FCC reject the NAB's petition 04-160. I am a subscriber to satellite radio and feel most fortunate to be liberated from the endless commercials and very limited programming available on most commercial radio stations. I gladly pay a monthly fee for the service I receive on satellite radio and am deeply offended that a political interest group would try to use its influence to limit or curtail the services that I gladly pay for. In keeping with the American tradition of freedom and innovation I urge the FCC to resist all attempts to halt the innovations in radio broadcasting offered by satellite radio services.

Sincerely,  
Matthew Brandt
